Allowable Subject Matter

3. Claims 1-5, 8-11, 13-20, 23-26, 28-32, 35-38, 40, and 42-50 are allowed.

The following is an examiner's statement of reasons for allowance:

4. Independent Claims 1, 16 and 28 is allowable because none of the prior art of record disclose a system or a method for determining whether arching is present in an electrical system, wherein a circuit for analyzing a sensor signal and a controller for processing the sensor are integrated into a single application specific integrated chip (ASIC) and include at least two bandpass filters having different bandpass filters and a set of comparators having outputs which change state when a predetermine threshold is exceeded in combination with the other claim limitations.

5. Independent Claims 47-50 are allowable because none of the prior art of record disclose an arc fault circuit interruption system that includes a test signal buffer which acts as a current source for driving a test winding at a center frequency of each of the bandpass filters in combination with the other claim limitations.

6. Claims 2-4, 8-11, 13-15, 17-20, 23-26, 29-32, 35-38, 40, and 42-46 are dependent on allowable claims 1, 16, 28, and 47-50 and therefore allowable.

Comments to reasons for allowance

7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
